RENAISSANCE VILLA IN LUCCA

<https://clubproperty.com>

Nestled in the enchanting Tuscan countryside, just a short distance from the historic center of Lucca, this 16th-century historic villa is a true gem, surrounded by gentle hills dotted with olive groves, vineyards, and acacia woods. Within an estate of approximately 10,000 sq. m., enclosed by original stone walls, stand three beautifully restored buildings: the main villa, a barn, and a farmhouse, each preserving the timeless charm of the Renaissance era. The main villa features six bedrooms and five bathrooms. Its recent restoration has enhanced the original architectural features, retaining the elegance of its historic character.
